

USIB-D-39.4/1  
25 August 1959  
Final - USIB Approved

UNITED STATES INTELLIGENCE BOARD

Policy Statement on Disclosure and Reproduction of  
Intelligence Originated in Another USIB Agency

1. Attached is a revision of the "Policy Statement on Disclosure and Reproduction of Intelligence Originated in Another USIB Agency," which incorporates the amendments proposed by the Committee on Documentation and circulated previously as USIB-D-39.4/1, 13 August.
2. Since no Intelligence Board member objected or requested a Board discussion of this proposed revision, we consider that the Board has concurred in this revised statement. Accordingly, the attached paper should be regarded as a USIB-approved statement, superseding IAC-D-95/5, 8 October 1957 (circulated as an attachment to IAC-D-95/6, 23 October 1957), and effective as of the date of this memorandum.

Final - USIB Approved

Policy Statement on Disclosure and Reproduction of  
Intelligence Originated in Another USIB Agency

In order for the member agencies and their analysts to discharge their responsibilities more effectively, and without intent to limit such broader authority or responsibility as any may now have under law or NSC directive, the United States Intelligence Board is agreed:

- a. That each member agency, for purpose of central processing, may reproduce for itself, foreign intelligence and intelligence information originally issued by another.
- b. That such reproduction may be performed for another member agency, and such information disclosed by the properly accredited analysts of a USIB agency to those of another engaged in the production of national intelligence if the intelligence or information was originally given general distribution to all USIB member agencies, or was otherwise generally available to them.
- c. That intelligence or information which by reason of sensitivity bears special classifications or is for limited distribution, or which bears a special warning prohibiting reproduction or disclosure, shall not be so reproduced or disclosed.

UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: Policy on Intelligence Disclosure within the  
Intelligence Community

1. The attached memorandum from the Chairman of the Committee on Documentation (CODIB) proposes a revision of the "Policy Statement on Disclosure and Reproduction of Intelligence Originated in Another USIB Agency" and sets forth the reasons for this recommendation.

2. Since this matter does not appear to require a specific discussion by the Intelligence Board members, we do not propose to place it on the agenda of a Board meeting unless requested to do so by a Board member. Accordingly, if before close of business on 24 August there is no objection or request from a member for the Board to discuss the matter, we will consider that the Board has approved this revised statement as of that date. We will then reprint and circulate it as a policy statement of the United States Intelligence Board.

UNITED STATES INTELLIGENCE BOARD  
COMMITTEE ON DOCUMENTATION

MEMORANDUM FOR: Executive Secretary USIB

SUBJECT : Policy on Intelligence Disclosure within  
the Intelligence Community

1. On 8 October 1957, the IAC approved a policy statement on the reproduction by members of the intelligence community of intelligence originating in another agency (IAC-D-95/5 and 95/6).

2. The Committee on Documentation was recently asked by the Department of State to formalize a policy statement covering the disclosure by analysts in one agency of the intelligence of a third agency to analysts in another agency who are producing national intelligence (CODIB-D-37, 9 June 1959). For example, if an Army man working on a section of the NIS goes to State for help, State wants permission to show him pertinent CIA reports which have been distributed to the community.

3. The consensus in CODIB is that adequate authority already exists for this practice. However, some agencies feel the need for a formal statement on which to base modifications of internal regulations.

4. CODIB has concluded that the most simple way to clarify this issue is to amend the present policy on reproduction, and accordingly, recommends that the USIB approve the attached statement.
